## Runner/Trainee

### EXPERIENCE

#### Resource Productions, Berkshire Film Office — *Runner*

July 2020 - July 2020

During my placement at Resource Productions I did some running, going to the shops to buy things needed. I was also able to assist on a location shoot in Reading for the Berkshire Film Office where I helped transport and manage grip, cameras and lighting. I also helped with some admin work, inputting data and creating surveys.

#### BFI Film Academy, Pinewood Studios — *Training*

October 2019- November 2020

I took part in the BFI Film academy and although we all had allocated roles, we all had to do a bit of running to make sure everything went smoothly. My role on the film was in the sound department so I helped operate the boom mic, create sound effects and choose soundtracks. It was a really good experience to learn more about the industry and the responsibilities that everyone has. It also built my confidence a lot as I had to work with people I had just met but we all quickly bonded. After the film academy I feel more confident and comfortable when meeting new people.

#### Working In The Film Industry — *Award*

I graduated from the BFI Film Academy and was awarded with a level 2 NFCE Working in the Film Industry award. This included knowledge and understanding of roles/culture/copyright/health and safety and more in the film industry.

#### 'Local Crowd' Radio - *Producer*

For my A level Media Studies coursework I had to create a radio segment and an arts website to go along with it. For the radio segment I had to get a lot of help from a few of my friends as I needed a few different voices for it. We spent a lot of time going back and forth updating and editing it on audacity. It took a lot of communication to produce, my friend brought in their mic to record help with the quality as well. The team work in the project was vital in making sure it ran smoothly as there is no way I could have done it alone.

#### Portraiture photography, *Photographic Assistant*

During my A level, we would often do many practical shoots, in groups and individually. We would have to go back and forth a lot of the time, bringing equipment and then setting it up. The rest of the group could be setting some things up while I got the rest of the equipment or unlocked rooms and prepared for the shoot etc.

I consent to you keeping my CV on file and distributing it for employment purposes.

### EMPLOYMENT

#### Daniel, Windsor

- *Sales Assistant*

April 2019 - March 2020

I worked in stationery as a sales assistant, it really helped build confidence and independence. While working there I worked a lot with other people to make decisions and get tasks done quicker, there were often a lot of tasks that we would need to work together in order to complete them by the end of the day.
